MOVING FROM A GENERAL TO A PERSONALISED MODEL FOR THE EVALUATION OF OUTCOMES: Perspectives from/for international research

Tiziano Vecchiato Fondazione E. Zancan

Our Conference as an experiment

WE MADE AN EXPERIMENT

Starting question:

"How many people from different people could be interested to meet" in order to:

- to learn more?
 - about what?

OUR STARTING POINT

Assessing the "Evidence-base" of Intervention for vulnerable children and their families i.e.

How do we evaluate outcomes and how can we do it better?

WE ARE THE EXPERIMENT

So many countries, so many cultures, different welfare systems....

ALL here in Padova with **ONE** question:

IS IT EFFECTIVE ALL WE ARE DOING? ARE WE ABLE TO LOOK AT NEEDS IN THEIR COMPLEXITY ... IN ORDER TO MEET THEM?

FIRST RESULTS

- Database with 38 thematic areas, 193 papers prepared by 428 authors
- Most of them focused on issues connected to outcome-based evaluation
- The Database could be a "treasure" to develop and share together along time

OUTCOME EVALUATION as a new PARADIGM

OUTCOME EVALUATION CAN MAKE
THE DIFFERENCE in terms of theory,
methodology and strategies

BUT

which are the conditions for a paradigm shift?

Evidence based and/or outcome based

 Outcomes to be considered in terms of changes (i.e. differences)

 Instruments and methods for facilitating a global vision 4. To jointly consider the needs and outcomes of the child and the family

5. To integrate "outcome as a difference" and multifactor outcomes

6. A common platform for comparing output and outcome evaluation

"EVIDENCE BASED" AND/OR "OUTCOME BASED" RESEARCH?

- To integrate the observational and descriptive research with the experimental research
- To define new experimental designs and their strengths in relation to the evidence base
- To re-consider the relationship between experimental group and control group
- To move from good practices to best practices, i.e. outcome based as a gold

OUTCOMES TO BE CONSIDERED IN TERMS OF CHANGES

Fondazione E. Zancan onlus

"S-P" a tool for a Global Vision

"S-P" as a shift of paradigm

In S-P we move:

FROM a cartesian plane, as the baseline (Blythe e Tripodi, 1993) TO a multifactor dimension of analysis and decisions

FROM a bi-dimensional dimension TO a multifactor dimension (more possibility for glabalisation and personalisation)

TO INTEGRATE "OUTCOME AS A DIFFERENCE" AND MULTIFACTOR OUTCOMES

"OUTCOME AS A DIFFERENCE" $[\Delta t_{0...N}]$

THE CHILD

HIS/HER FAMILY

MULTIFOCUS VISION

THE CHILD

... AND HIS/HER FAMILY

OUTCOME DESCRIBED in terms of

[F(x,y,z)]

where:

X is observed at TO

Y is observed at T1

Z is expected at T1

A COMMON PLATFORM FOR COMPARING OUTPUT AND OUTCOME EVALUATION

COMMON PLATFORM FOR OUTPUT EVALUATION

COMMON PLATFORM FOR OUTCOME EVALUATION

The DCE approach defining – classifying - evaluating

Example - child

A disabled child with learning difficulty and problems in socialization

→ V1b - I2a - D3a

CT Child Welfare Resource Tree

Funding for Child Welfare Services \$627,357, 787 (€ 466,943,889) - 100% Child Protection Community Based Services Child Protection - Out of Home Services \$37,905,157 (€28,212,808) - 6.0% \$157,827,298 (€ 117,470,876) - 25,2% Behavioral Health - Community Based Services Behavioral Health - Out of Home Services \$48,588,256 (€36,164,239) - 7.7% \$114,035,511 (€ 84,876,631) - 18,2% Behavioral Health - State Operated Facilities Juvenile Justice - Community Based Services \$42,083,914 (€31,323,057) - 6.7% \$9,443,746 (€ 7,028,980) - 1.5% Juvenile Justice - Out of Home Services Juvenile Justice - State Operated Facilities \$24,304,045 (€ 18,089,501) - 3.9% \$32,192,972 (€ 23,961,229) - 5.1% Management/Administration Prevention \$157,198,971 (€ 117,003,194) - 25,1% \$3,779,917 (€ 2,813,392) - 0.6%

IN ORDER TO FOLLOW THIS PERSPECTIVE, WE NEED A RENAISSANCE

- Our conference can represent an opportunity in order to meet this perspective?
- Renaissance means "to be born again", to look at the world with new eyes, to develop new approaches for facing difficulties
- Integrating the direct vision with those beyond the surface
